

## Argo Real Estate Launches Video Series for Condo and Co-Op Boards

Argo Real Estate, a top property management company in New York City, is proud to announce the launch of their "Argo University for Boards" video series. The series presents viewers with an array of real estate topics covered in short, three-to-five-minute videos. "Argo University for Boards" is known for its quarterly education sessions that focus on keeping condo and co-op board members informed on topics that matter most to them.

"Argo Real Estate is dedicated to educating and supporting board members, who do a very difficult job," said Argo Real Estate COO Julie Zuraw, "and to giving them easy access to the information they need."

"Argo University for Boards" gives Argo-managed condo and co-op boards the most up-to-date industry information on an array of important topics. The first five videos now available to view cover the following topics:

- Why attend Argo U
- Pet and smoking policies
- The board application process
- How to run a successful board meeting

- Your building renovations
- Future video topics will include:
- Alteration agreements
  - Running effective meetings
  - Understanding financial statements
  - Insurance and liability considerations
  - Understanding and benefiting from NYC energy laws

For years, the program has been known for bringing the industry's top experts to boards for in-person, real-time problem solving.

With the launch of Argo's new video series, board members who are unable to attend the seminars can still receive the most important information through short video features hosted on the Argo Real Estate website: [www.argo.com/educational-resources](http://www.argo.com/educational-resources). These videos showcase first-hand narratives from the experts who serve on the "Argo University for Boards" panels. Board members can also use the website to sign up to attend the next Argo U seminar, "Emergency Response for NYC Residential Buildings: Preparing for Terrorist Attacks, Shooters, and Other Threats," at [www.argo.com/for-boards](http://www.argo.com/for-boards).
